Compact in size, giant in performance

The ultimate in versatile, low-cost high-quality printing

The RISO KS800 sets new standards in cost-performance, versatility and ease of use. This stylish, compact printer -the crystallization of RISO's long experience and advanced manufacturing technology- offers outstanding print quality and performance at just a fraction of the cost of a comparable printer or copier. An unrivaled ease of operation, makes all this versatile printing power available at little more than the push of a button. If you're looking for high-quality and low-cost printing everybody can use with ease, you've found it: the RISO KS800.

Wide original compatibility

To assure you of the best results with a wide variety of originals, KS800 offers letter / photo/ newspaper modes as well as reduction and enlargement. Letter mode is ideal for text based documents, photo mode is designed for originals that are graphic / photo intensive, and newspaper mode is perfect for printing from newspapers or originals on rough or recycled paper. Four-step reduction and three-step enlargement allow you to match your master to your desired output size.

Easy, intuitive operation

Clever engineering and a clear easy-to-read control panel makes operation both, simple and intuitive. In fact, printing with the KS800 is just about as easy as using a copier. This

means that everybody in the office can take advantage of the KS800's quality and versatility from day one, with no special training required.

Output quality you can rely on

RISO is known for its quality printers, and the name is your guarantee of top-quality output. Scanning resolution of 200 x 300 dpi, reproduces the finest details clearly and legibly for beautiful results with virtually any original.
